

TOWNSHIP of HOLMDEL

Winter Storm Update
December 15, 2020

Message from Mayor Buontempo:

Good evening. This is Mayor Greg Buontempo.

A winter storm watch has been issued for Western Monmouth County beginning on Wednesday morning and running through early Thursday. The National Weather Service is calling for the possibility of 5 inches of snow along with sleet and freezing rain for the Holmdel area.

Travel could be difficult at times, and hazardous road conditions could affect your daily commute. The wet snow in combination with possible high winds could result in temporary power outages. Holmdel Township will remain in communication with Jersey Central Power & Light to ensure that any outages are resolved as expediently as possible. To report outages residents can contact JCP&L at 1-888-544-4877.

With that in mind, I encourage all residents to exercise caution while driving on Township roads. If possible, limit your travel for the duration of the storm as well as during the storm clean-up period. Make sure to have food in your home prior to the beginning of the storm, and be careful when shoveling so as not to over-exert yourself.

Please follow the Holmdel Township Facebook page and sign-up for notifications on the Holmdel Township website to stay up-to-date on the latest storm-related information.

If you have any questions or feedback, you can always contact me at mayor@holmdeltownship.com.

As always, stay healthy and stay safe. Goodnight.
