

TOWNSHIP of HOLMDEL

COVID-19 Update
January 22, 2021

Message from Mayor Buontempo:

Good evening. This is Mayor Greg Buontempo.

Holmdel Township has **216 new COVID-19 cases since the beginning of January.** As of today, the Township has a cumulative total of **997 positive COVID-19 cases.**

Information about the pandemic has been fluctuating daily and so I would like to provide clarification on the current status of vaccine distribution.

Following the expansion of eligibility to include all those over age 65 as well as those aged 16-64 with certain medical conditions, New Jersey now has approximately 4.5 million citizens eligible to receive a COVID-19 vaccine. This increased demand is causing many residents to hit a roadblock when attempting to register for a vaccine. Unfortunately, there is extremely limited supply throughout the state.

If you have not done so already, please register at the NJ Vaccination Portal so that you are notified of your eligibility. As it becomes available, there are multiple avenues to receive a vaccine. You can register at one of the vaccination sites around the state, including the six mega sites, or at a local provider. There is more detailed information about these sites in my accompanying email and on our website.

Bayshore Medical Center has administered over two thousand vaccinations and will continue to serve as a distribution site for eligible recipients. Beginning Monday, Monmouth County will be offering vaccines at Brookdale Community College. Registration is required at all locations; walk-ins are not accepted.

As always, I thank you for all you do to help move ***Holmdel Forward***. Stay healthy and stay safe. Goodnight.
